May, 2020

MOSSAD Investigation and Security Corporation

1 Crosfield Avenue • Suite 303

West Nyack, NY 10994

SUBJECT: COMPANY INTRODUCTION & SERVICES DESCRIPTION

Welcome:

We have prepared the attached information to briefly describe the MOSSAD company and the various investigation and security services that we provide. These pages may be revised on occasion and downloaded by you until our new corporate brochure is uploaded. That's likely to be in the third quarter of 2020.

It's important to note that while our new promotional materials are being prepared, MOSSAD IS READY NOW to provide the very best personal and corporate protection services to you. Know that our employees are bonded and insured. Also, we're licensed by the New York State Department of State assuring our professionalism while offering you peace of mind.

These pages do not include complete details about our company. MOSSAD is well known for providing custom solutions for all security needs. We invite you to visit our website at www.MossadSecurity.com or call **888.322.4347** for additional information.

Sincerely,

Management

MOSSAD Investigations and Security Corporation

ABOUT US

As the decision-maker, yours is a very tough choice to make. There are many security guard and investigation companies. They offer many services and many different prices; most high. Choosing the best one for your personal or business needs is a daunting task, indeed. But it doesn't have to be!

We'd like to make the choice an easy one, just as we have for dozens of others like you. It's why MOSSAD is one of the fastest growing investigation and security companies in New York. We're grateful to our clients and they're happy with the improved level of protection and services that we provide at low rates. Commitment and performance are our guarantee to you.

MOSSAD is a relatively new company in the field. However, our management team and key personnel have several hundred combined years of experience in the industry. Our personnel receive extensive training. We've purchased the best equipment. Operations were setup to run flawlessly, and do.

So, why are we right for *you*? Because, we're driven to provide incomparable investigation and security service now and in the future. Our owners work hard to ensure that we don't lose a single client due to bad performance. So far, we haven't (They hate to lose!). What's more, you will not pay less for comparable skills and service. Better service. Better rates. Guaranteed.

Dare to compare. You will not be disappointed with MOSSAD.

SERVICES

Personal Investigations

Information is power though for some, obtaining it can be difficult and very expensive to acquire. Not for the trained professionals at MOSSAD. We know where to look and where to get the information you're looking for. In many cases, we even present our clients with more details than they were originally looking for. Ask us to deliver past, present, criminal or references data on anybody you like.

Corporate Investigations

We specialize in business studies and corporate transaction due diligence. Just let MOSSAD know whether you require corporate research, background checks, brand or intellectual property protection or any other type of answers on anything business related. We're here to help... and we do.

Surveillance

When called upon, our personnel know exactly what to look for and MOSSAD supplies them with the best equipment to get the job done for you. We discreetly monitor the behavior and activity of one person or thousands, as you require. We're there watching 24/7, to prevent crimes and/or to provide evidence about the criminal when required.

SERVICES (cont'd)

Counter Surveillance

Sometimes your competitors or criminals can get a bit too curious about what goes on at your location. That's when MOSSAD can be contacted to eliminate the threat of illegal searches and monitoring. We have highly trained personnel and the finest equipment to detect devices covertly planted by those with evil thoughts. MOSSAD is ready to make things safe again and to keep them secure in the future.

Executive Protection

Many people have elevated personal risk without knowing it. At MOSSAD, we know it. Employment, high-profile status, net worth or affiliations may trigger danger. We offer safety.

Armed/Unarmed Guards

In most circumstances, standard security personnel and procedures from MOSSAD will suffice to protect against risk. This may include unarmed guards in uniform or in plainclothes. There may be times however when the threat risk is elevated. Armed protection may be called for. Mossad is well prepared for these contingencies. Armed or unarmed, Mossad will determine what level of protection is required to safeguard whomever or whatever must be protected.

SERVICES (cont'd)

Fire Guards

We provide operational plans in the event of fires and natural disasters. MOSSAD works closely with federal and local law enforcement agencies, fire departments and first responders. When fire guards are mandated for a construction site, hotel, motel, high-rise building, buildings w/o sprinklers, boat yards, events, etc., contact MOSSAD for protection and safety.

Mobile Patrols

MOSSAD guards in specially equipped vehicles can provide 24/7 proactive protection in any geographic area you designate. We assign them to provide random patrols and they're prepared to provide emergency response whenever required.

Dignitary Escorts

We have a lot of experience with V.I.P.'s. We do research to determine where threats may come from and by whom. MOSSAD will work with any private security force used by the V.I.P. But, we also work independently towards the same safety goal just in case the threat is aided from somebody within. Getting from Point A to Point B when using armed MOSSAD personnel will place your important personage in a secure bubble he or she can be transported in. There's no safer way to travel than with an armed MOSSAD guard.

SERVICES (cont'd)

Construction Site Security

A building is built to withstand the forces of mother nature and hopefully whatever those with evil intent might try attempt. When that edifice is being erected however, the chain link fence or wood boards around the construction area don't offer the same level of protection. That's why more and more construction managers are contacting MOSSAD. Our guards are on duty 24/7 to ensure the safety of the premises. They dutifully protect property, materials, tools and equipment. They also provide emergency response services and trespass prevention. And in actual emergencies, they can limit weather damage and limit or prevent losses from accidents. Until you have a doorman at the front door, hire MOSSAD to guard the property.

Day/Night Entertainment Security

From amusement parks and arcades to bars, clubs, concert halls and stadiums, guards from MOSSAD are the best deterrent you may hire. Prevent the problem before it arises. Hire MOSSAD.

Event Security

MOSSAD gets the call for parades, protests, marathons, outdoor concerts and a variety of other outdoor events. Our presence ensures that clients' plans go off, as planned. We can't protect against bad weather... but we'll safeguard people and property.

SERVICES (cont'd)

Religious Houses of Worship and Schools

Any follower of current events is aware of the dangers to those of a particular faith. In reality, worshippers of all faiths are at great risk. Sadly, not only are those of different denominations in danger, but racial prejudices jeopardize those of every color too. Even those of a different political group can come under violent attack. Should sanity and common sense prevail, peace will rule the day. Until that time however, protection is needed by good people. MOSSAD provides the protection, armed and unarmed, that is needed at this time. Don't put those you care about at risk. Act today; before you or those that you care about become tomorrow's headline.

ADVERTISEMENTS

Today, we're licensed to guard just about anywhere on the ground in New York State.

Soon, we'll be licensed to fly high-tech surveillance drones to protect New Yorkers from above too.

There are new ideas and applications for advanced drone technology. Cutting edge companies and entrepreneurs are speaking with us every week. Call to see how our being high up can help your business down below.

What kind of security are you paying for? Maybe it's time to check and compare. Shhhhh... We don't want to wake anybody though.

Search the Internet and we have many competitors.

Compare us closely and we have none. [Compare ▶](#)

ADVERTISEMENTS (cont'd)

When you need a professional security guard, one will be there.
When you need a professional security force, they'll be there.

MOSSAD. When you need us.

TO PROTECT AND SERVE.

info@mossadsecurity.com

Somebody very important is about to be driven from Point A to Point B. It'll be the most secure ride this person ever took. That's because our *newest Cadillac Escalade* will be driven by a *highly trained and armed MOSSAD* driver. Also, live-tracked by *MOSSAD* the entire way.

If you're the V.I.P. type, let us know when we can take you for a ride.

Soon, we'll be improving safety and security by taking both to a higher level... the skies above New York City! Wait until you see, what we'll be seeing, to better serve and protect you.

FINAL THOUGHT...

Many people order the proper level of protection *after* something happens. *After* the police report. *After* the insurance company (if they had coverage) pays their share of the loss. *After* they realize that they didn't have the right protection to have prevented a crime or accident from occurring.

Don't let that somebody be you! Contact MOSSAD today for our elite, professional protection and investigation services every day and night.

AND A FINAL THOUGHT ON COVID-19/CORONAVIRUS...

In all likelihood, 2020 has not turned out to be the year that most people expected. As of this writing, “when” things might go back to normal or even near-normal is not known.

One thing is known for sure, though. **Mossad Investigations & Security Corporation** remains one of the leading protection companies that you can depend on for all of your security needs.

Our slogan:

Protection for anyone, anything, anyplace.©

remains in effect, even during a global pandemic! Our team remains on active duty, even now to protect our clients, their employees and guests, their property and their premises.

Especially now, you need the best available protection you can receive at the most reasonable price. Mossad offers the highest level of protective services at very competitive prices. *Why not contact us today, before becoming just another crime statistic in police files?*

Stay safe, all!
